

Our Solutions

Finance and Accounting

ACS is the leading provider of fully diversified, end-to-end business process outsourcing (BPO) and IT outsourcing (ITO) solutions to commercial and government clients worldwide.

Leading organizations excel because they seize every opportunity to gain competitive advantage. In today's marketplace, you must cut costs and create new streams of revenue to thrive.

By outsourcing some or all of your finance and accounting (F&A) operations, you can:

- Save money
- Substantially improve service levels
- Marshal resources toward initiatives that generate profitable growth.

As a result, you can leapfrog competitors who remain bogged down by inefficiency and rigidity.

By providing smooth, seamless F&A management, we can deliver enhanced, predictable outcomes and a sharper focus on business results.

In an F&A outsourcing engagement, our professionals match their business process expertise to your unique requirements and objectives.

As a result, you receive the benefits of:

- Best practices
- Highly skilled workers
- Innovative new technologies and tools
- Global, integrated solutions.

In addition, we work with your current technology wherever possible, avoiding the need for additional investments.
